

SCHOTT Gemtron Viewing Window

Clearly the best choice

SCHOTT Gemtron's unique window design offers complete glass protection for your viewing windows. Our design completely wraps the glass during our manufacturing process so that during shipment, installation, and actual use your investment is protected. The insulated glass unit is 1" thick and is available in multiple configurations to meet your refrigeration requirements.

Best Design....More Choices

SCHOTT Gemtron offers the widest range of viewing windows in the industry. The sizes range from view port windows to windows as large as 5' by 7'. With SCHOTT Gemtron's broad manufacturing capabilities we continue to meet the end users needs.

Windows can be used in wall thicknesses from 2" to 6" with standard trim kits.

Consult factory for custom size window units.
